## **Industrial Electrical, Instrumentation, Fibre Communication Services**

From high-voltage systems to precision controls, we provide comprehensive electrical engineering services for industrial facilities. Our team delivers safe and efficient installations, upgrades, and maintenance—enabling reliable operations in critical infrastructure.

We offer end-to-end instrumentation services that ensure precise control and monitoring of industrial processes. Our expertise is vital in sectors where accuracy and safety are paramount—especially in Oil and Gas production and mineral processing.

Our fibre solutions support industrial-grade communication networks. We install and maintain high-speed fibre optic infrastructure that powers plant automation, data acquisition, and secure control systems—designed for durability in demanding environments.

Certified Projects Avenue has successfully executed complex projects across the Oil & Gas and Mining industries.

We are highly experienced in the construction, automation, and commissioning of pipeline infrastructure, power systems, and control stations.

### **Commercial & Residential MEP Works**

At Certified Projects Avenue, we provide integrated Mechanical, Electrical, and Plumbing (MEP) solutions for both commercial and residential developments. Our services are tailored to meet the dynamic needs of modern building systems, ensuring functionality, efficiency, safety, and long-term reliability.

### **Electrical Wiring, Distribution & Equipment Installation**

We execute precision electrical wiring for new buildings, renovations, and upgrades. Our team is made up of Electricians and Engineers who are certified by the Energy Commission of Ghana.

From conduit layout to cable routing and panel installations, our electrical works adhere strictly to national codes and international best practices, guaranteeing safety and operational efficiency for both homes and commercial properties.

We install a wide range of building service equipment, including:

- Switchgear and distribution panels
- Lighting systems (general and decorative)
- HVAC control panels
- Water pumps and heating systems
- Fire alarms and smoke detectors
- Backup power systems (generators, UPS units, solar PV inverters)

Our installations are delivered with a meticulous attention to detail, ensuring optimal performance, aesthetic integration, and minimal disruption to your space.

### **Plumbing & Mechanical Systems**

Our plumbing team provides comprehensive solutions—from water supply and drainage networks to sanitary fittings and water heating systems. We work closely with developers and engineers to deliver code-compliant, durable, and efficient plumbing infrastructure.

### **Maintenance & Support**

We offer reliable, scheduled, and emergency maintenance services for MEP systems in both residential and commercial settings. This includes fault diagnostics, equipment servicing, rewiring, and system upgrades—ensuring minimal downtime and continued comfort and safety for occupants.

### **Commitment to Health, Safety, and Environment (HSE)**

HSE is embedded in our culture. Every project is governed by internationally recognized protocols, with risk mitigation, personnel safety, and environmental protection as central pillars.

Our track record demonstrates a consistent delivery of high-risk projects with zero harm, safeguarding both people and the planet.

Whether you're developing a large-scale energy facility or expanding mining operations, Certified Projects Avenue is your trusted partner for delivering safe, smart, and sustainable industrial solutions.
